

# MID-CENTRAL STATES ORTHOPAEDIC SOCIETY, INC.

FOUNDED 1954

69TH ANNUAL MEETING | SHANGRI-LA RESORT | GRAND LAKE O' THE CHEROKEES  
AUGUST 3-4-5, 2023

## APPLICATION FOR RESIDENT RESEARCH AWARD

The Henry O. Marsh Award for Resident Research was initiated in 1981, with the first awards presented the following year. This Award was started to recognize papers of high quality, representing hard work and beneficial information that should be shared with other Orthopedic Surgeons.

MCSOS will waive registration and meal fees for winners, as well as award two residency programs a \$450 stipend to assist in travel and meeting costs for two chosen winners. Winners and residency programs will be notified by May 15, 2023, and the stipend will be sent to the program following the meeting.

To be eligible for the Henry O. Marsh Award, you must be a Resident in an AMA approved program, from the 8-state geographical area or an adjacent state. Orthopedists in their first year of practice having a paper completed during their Residency Program are also eligible. Papers may be on any subject related to orthopedics and must be the work of the Resident. Projects must begin and be completed during Residency and approved by the Program Director. Students outside of the area may apply to present, but will not be eligible for the stipend.

Winners should plan to attend the 69<sup>th</sup> Annual Meeting at Shangri-La on August 3-4-5, 2023. The Executive Director will coordinate and date and time for the resident give a short presentation (approximately 20 minutes plus Q & A).

Send the following application information and abstract to [mcsos1954@gmail.com](mailto:mcsos1954@gmail.com):
